

Your Partner in Pharmaceutical Processing

**Nicomac is a world leader in the design and manufacturing of
Tablets and Pellets coating
equipment,
Modular clean rooms,
Washing and Sterilizing equipment
Granulating and powder handling
equipment**

**With system installations worldwide,
Nicomac has resolved many of the
problems associated with
pharmaceutical manufacturing.**

**Our experience permits Nicomac to
analyze your specifications and
present a number of options to your
company.**

**It's not just our way, its your way.
That's the NICOMAC advantage.**

THE NICOMATIC COATING SYSTEM

Our systems are capable of performing aqueous and organic film coating of tablets, pellet production, and sugar coating processes. Automatic powder dosing for accurate dosing and powder layering. Absolute Humidity controlled process, on line weight increase verification. With the Nicomac Coating System, you will be able to coat pellets, tablets, or granules all in one machine!

HIPHARMA CLEAN ROOM SYSTEMS

If you are looking to expand or move your clean room in the near future, keep in mind our clean rooms are fully-modular. Easy to assemble and disassemble, wall erection and disassembling can be done in a clean environment without the risk of contaminating neighboring areas; no dust is generated during the assembling and disassembling operations, no wet materials are used.

ICOS WASHING STERILIZING EQUIPMENT

The LST machine,
Complete stopper
processing Washing,
Rinsing, Siliconizing,
Sterilizing, Drying,
Cooling **Sterilizing
Autoclaves** available

with the following sterilization media: Saturated Steam, Steam/Air Mixture Superheated Water, and EtO. **Class 100** Dry Heat Sterilizers and Depyrogenizers Class 100 guaranteed over the entire cycle and impressive temperature uniformity far below $\pm 5^{\circ}\text{C}$. **Washing machines for Glassware and machine parts.** ML series. **CIP WIP systems** for inside and outside tank washing.

PHD PROCESS HANDLING DESIGN Equipment for solid dosage areas

- Dispensing
- Sieving, Milling, Calibration
- Post hoists
- IBC
- Mixers and blenders
- Fluid bed
- Vacuum transfers
- Tablet presses

PHD – Process Handling Design Equipment for Solid dosage areas

Double Cone Blender

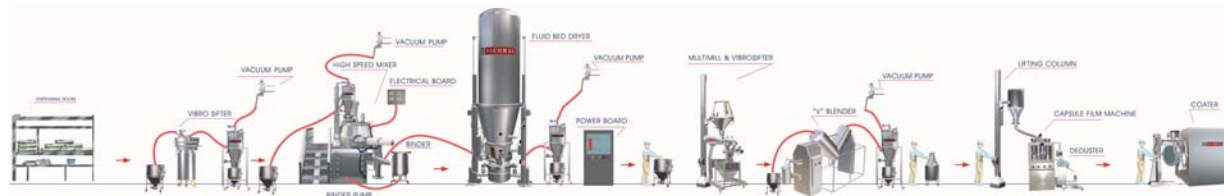

V Mixer

Milling and Sieving

IBC and Blenders

One supplier for a fully integrated powder handling and processing line.

Solutions

for your pharmaceutical manufacturing projects
