

HIPHARMA CLEAN ROOM SYSTEMS

The HIPHARMA Clean Room line is Nicomac's answer to the ever-evolving needs of the Pharmaceutical industry. Our clean rooms system can also be used in non-certified areas and combine quality and innovation at a competitive price. The following are just a couple of the many features that we feel set our clean rooms apart from the competition:

MODULARITY If you are looking to expand or move your clean room in the near future keep in mind our clean rooms are fully-modular. Easy to assemble and disassemble : wall erection and disassembling can be done in a clean environment without the risk of contaminating neighboring areas; no dust is generated during the assembling and disassembling operations, no wet materials are used

WALLS

The Hipharma walls are made of a strong, self-supporting aluminum framework. In addition to being easy to install, their plastic laminated surface makes them practically scratch free. They are also

resistant to cleaning chemical agents, steam, water, and any kind of impact or abrasion. This is the most durable wall system in the marketplace!

ATTRACTIVE DESIGN

From floor to ceiling, the attractive Italian design of Hipharma Clean Rooms really stands out.

FALSE CEILINGS

Our clean rooms can be installed with either walk-on or standard false ceilings. Flushed to the T-grid tiles are available with different construction materials. Our 1250 x 3000 (4'x10') walk on panels are the perfect solution when a fully supporting mezzanine to be used as technical floor is required

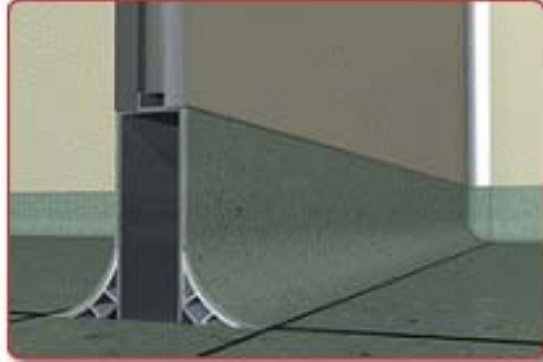

CLEANING

All coving is flush to the wall. All corners are rounded to avoid dirt and particle buildup.

FLOORING

We offer both PVC and Epoxy flooring. PVC flooring is easy to install and has excellent abrasion resistance, ideal for high traffic areas.

DOORS

We offer both single and double doors in a variety of sizes. All of our doors have rounded profiles and gaskets. Windows, interlocking door systems, drop seal -type floor gaskets and several different hardware selections are just a few of the many options available for our doors.

WINDOWS

Our windows feature safety glass sandwich construction, round corners and concealed anti-moisture agents. Our windows come in several different sizes and are guaranteed for ten years.

INNOVATION

We have recently patented two new designs and nine new profiles. We continuously research new designs and materials to assure that our customers receive the finest products available.

DELIVERY AND INSTALLATION

Quick delivery is available direct from our factory. Nicomac's skilled, factory trained engineers supervise all aspects of the installation process. We help plan and coordinate your project while respecting your time schedule.

DOCUMENTATION

We provide detailed documentation including internal QA forms and technical data sheets for all our customers.

ACCESSORIES

Our phenolic resin panels can be milled down in order to achieve flush installation on all accessories: lockers, hand washing system, interphones, semaphores, wall flushed electrical receptacles, low level air return grills, pass through boxes, benches and clocks, etc.

Nicomac's Hipharma Clean Room Systems: the right answer for your modular clean room needs.
